NINO® Percussion relaunch 2013

Gutenstetten, Germany – March 2013

NINO® Percussion presents a brand-new catalog for 2013. The new program includes 67 new models, 12 “how to play” series to explain and show how to play special instruments and provides high-res product photography.

The new website www.ninopercussion.com has a detailed overview of all products and makes it very easy for consumer to seek out NINO® products. It also enables downloading the catalog and access to the database for all product pictures in high-res.

“Learning to play an instrument and making music are life-changing things to do, especially for children.”

And that’s why NINO® Percussion offers an outstanding collection of musical instruments designed specifically for children.

The instruments meet more than the requirements of early childhood music education and are ideal for kindergarten and school programs, or for other music-making activities.

NINO® Percussion instruments are not toys – these are the real thing, designed for safety, durability, attractiveness and playability – but most important, they are in tune and musical.

These appealing and pleasing designs are all made in Germany and because they are of such a high quality and include a wide variety of sound choices, they are extremely popular with young players of all ages.
