CONTAINS Tambourine Holder
Headliner® Series Hand Held ABS
Tambourine (HTBK)
FEATURE Perfect for cajon players, guitarists and
singers

ARTISAN EDITION CAJONS

JOSÉ HERNÁNDEZ DÍAZ

also known as 'Pepote' – was born in Huelva (Spain) in November 1976. He inherited his passion for wood from his father and grandfather, both of whom were aficionados of woodworking and model aeroplanes.

He first came across the Cajon at the age of 13 while watching a Paco de Lucía concert on television. Inspired to make his own, he soon started receiving commissions from friends and acquaintances when they realised that the Cajon was virtually impossible to get hold of in Spain.

Pepote began taking these instruments to local shops in his city when he was just 15 years old. This marked the start of his woodworking training, where he focused on the production of musical instruments by studying techniques for making ancient musical instruments and guitars while also completing his studies in industrial furniture design.

Since then, he has been continually developing the instrument and relentlessly perfecting his craft. He came up with an aesthetic based on comfort, tried and tested more than 30 different kinds of wood for construction, created a special unbreakable string for the Cajon and tried 20 different kinds of varnish for the finish. The list goes on. Everything he does revolves around getting the best possible sound out of the instrument and providing the ultimate peace of mind for the percussionist.

6 BAHIA WOOD SURDOS (PATENTED)

SIZES **SUB18:** 18" diameter, 16" tall
SUB20: 20" diameter, 16" tall
SUB22: 22" diameter, 18" tall
MATERIAL Six-ply hardwood shells
FEATURES Countersunk bolt heads
Chrome plated hardware
Two head options
8 tuning lugs (18" model)
10 tuning lugs (20" & 22" models)
Logo applied from underneath the head (CN, TH, US patent)
INCLUDES Tuning key
COLOUR **AB:** Antique Brown
FINISH Matte

7 TRADITIONAL WOOD SURDOS (PATENTED)

SIZES **SU16:** 16" diameter, 20" tall
SU18: 18" diameter, 22" tall
SU20: 20" diameter, 24" tall
SU22: 22" diameter, 24" tall
MATERIAL Six-ply hardwood shells
FEATURES Countersunk bolt heads
Chrome plated hardware
Two head options
8 tuning lugs (16" & 18" models)
10 tuning lugs (20" & 22" models)
Logo applied from underneath the head (CN, TH, US patent)
SU22-L, SU20-L, SU18-L, SU16-L: Height adjustable legs
INCLUDES Tuning key
COLOUR **AB:** Antique Brown
FINISH Matte

TIMBAS, TANTAM, REBOLO, REPINIKES & CUICAS

1 TIMBAS (PATENTED)

SIZES **TIM1428:** 14" diameter, 28" tall
TIM1435: 14" diameter, 35" tall

MATERIALS Poplar Wood (*Populus*)

Replaceable synthetic head

FEATURES Lightweight shell; Chrome plated hardware; Comfortable rounded rim; Strong hook to carry it on a belt; Logo applied from underneath the head (CN, TH, US patent)

INCLUDES Tuning key

COLOURS **AB:** Antique Brown, matte
NT: Natural, high gloss

2 TANTAM

SIZE 14" diameter, 28" tall

MATERIALS Poplar Wood (*Populus*)

Replaceable synthetic Napa head

FEATURES Lightweight shell; Chrome plated hardware; Strong hooks to carry it on a belt

INCLUDES Tuning key

COLOUR **AB:** Antique Brown, matte

3 REBOLO

SIZE 12" diameter, 18" tall

MATERIALS Poplar Wood (*Populus*)

Replaceable synthetic Napa head
FEATURES Lightweight shell; Chrome plated hardware; Mechanical lug tuning; Strong hooks to carry it on a belt

INCLUDES Tuning key

COLOUR **AB:** Antique Brown, matte

REPINIKES 4 5

FEATURES Countersunk bolt heads; Chrome plated hardware; 6 tuning lugs (10" model); 8 tuning lugs (12" model); Logo applied from underneath the head (CN, TH, US patent)

INCLUDES Tuning key

4 WOOD REPINIQUE (PATENTED)

SIZE 12" diameter, 12" tall

MATERIALS Siam Oak (*Hevea brasiliensis* Muell.-Arg.)
Replaceable synthetic heads

COLOUR **AB:** Antique Brown, matte

5 ALUMINUM REPINIKES (PATENTED)

SIZES **RE10:** 10" diameter, 10" tall

RE12: 12" diameter, 12" tall

MATERIALS Aluminum

Replaceable synthetic heads

6 ALUMINUM CUICAS

SIZES **QW6:** 6" diameter

QW10: 10" diameter

MATERIALS Aluminum

Hand selected goatskin heads

FEATURE **QW10:** Countersunk bolt heads

INCLUDES Tuning key

7 ALUMINUM CAIXAS (PATENTED)

SIZES **CA12:** 12" diameter, 4 1/2" tall
CA14: 14" diameter, 4" tall

MATERIALS Aluminum; Replaceable synthetic heads
FEATURES Countersunk bolt heads; Steel snare wires; Professional snare throw-off mechanism; Logo applied from underneath the head (CN, TH, US patent)
INCLUDES Tuning key

8 TRADITIONAL ALUMINUM CAIXA (PATENTED)

SIZE 12" diameter, 6" tall
MATERIALS Aluminum; Replaceable synthetic heads
FEATURES Traditional style snares made from guitar strings; Extra deep body; Countersunk bolt heads; Logo applied from underneath the head (CN, TH, US patent)
INCLUDES Tuning key

9 SILENT TAMBORIM

SIZE 6" diameter
MATERIALS Molded ABS
Replaceable mesh head
FEATURE Floatune Tuning System; Countersunk bolt lugs; Mesh head for super low volume practice
INCLUDES Washer as tuning key
COLOUR **BK:** Black

10 FLOATUNE TAMBORIMS (PATENTED)

SIZE 6" diameter
MATERIALS Replaceable synthetic heads
ABS: ABS
ALU: Aluminum
FEATURES Floatune Tuning System; Countersunk bolt lugs; Logo applied from underneath the head (CN, TH, US patent)
INCLUDES Washer as tuning key

COLOURS **BK:** Black
GR: Green
R: Red
Y: Yellow

11 TAMPEIRO (PATENTED)

SIZE 6" diameter
MATERIALS Siam Oak (*Hevea brasiliensis* Muell.-Arg.)
Replaceable synthetic head
Three pairs of steel jingles
FEATURES Floatune Tuning System; Countersunk bolt lugs; Logo applied from underneath the head (CN, TH, US patent)
INCLUDES Washer as tuning key
COLOUR **AB:** Antique Brown

Learning to play an instrument and making music are life-changing things to do, especially for children.

Starting this in early childhood nurtures many things including perception, motor skills and the ability to learn and retain information. Making music also promotes personal confidence and social skills. These are all beneficial well beyond one's childhood years.

NINO® Percussion offers an outstanding collection of musical instruments designed specifically for children. These more than meet the requirements of early childhood music education and are ideal for kindergarten and school programs, or for music therapy and other music-making activities.

It is important to know that NINO® Percussion instruments are not toys. These are the real thing, designed for safety, durability, attractiveness and playability. Most importantly, they are in tune and musical. In fact, the only difference between NINO® Percussion instruments and those created for adults is their size and colour.

These appealing and pleasing designs are of a very high quality and include a wide variety of sound choices, making them popular with young players, as well as teachers and parents. Whether played alone or with a group, the performance and sound quality of NINO® Percussion instruments make them the ideal choice for young musicians and those who teach them.

NINO® CYMBALS "MADE IN GERMANY"

The NINO® cymbals and cymbal pairs made out of valuable materials provide the best sound at an unbeatable price. The best possible sound and consistency is a result of our state-of-the-art cymbal manufacturing facility located in Germany.

HOW TO PLAY

CAJONS

1. Leaning over and hitting the cajon with your palm toward the middle of the front plate will produce a low end tone.
2. Slapping the cajon on the side or near the top will produce a high pitched tone.
3. Use your foot for a special playing technique.
4. Tilting the cajon makes it more comfortable on your back and wrists.

DJEMBES

1. Place the djembe between your legs, crossing your ankles in front of you for support. Keeping your hands relaxed, strike the head of the drum near the edge for strong open and slap tones. Striking the drum in the middle will produce a powerful bass tone.
2. Alternating between your right and left hands, create your own patterns and rhythms.
3. Tune the djembe by using the provided tuning wrench to create a higher or lower sound.

BONGOS

1. Traditionally, you play the bongo between your legs with the smaller drum on your left. A slap tone is produced by cupping your fingers slightly as you strike the head of the bongo.
2. To create an open tone, strike near the edge of the bongo head with the length of your fingers in a loose slapping motion, letting your fingers bounce as you make contact with the drum.

CONGAS

1. Keeping your hands relaxed, strike the head of the conga near the edge for strong open and slap tones. Striking the drum in the middle will produce a powerful bass tone.
2. Use the two congas together to create fun rhythmic and melodic patterns.
3. Tune the conga by using the provided tuning wrench to create a higher or lower sound.

SEA DRUMS

1. Hold the sea drum horizontally and turn the drum slowly to create the sound of waves flowing in the sea.
2. Striking the sea drum in a horizontal position will create a crashing waves sound.
3. Holding the drum vertical and striking the heads will create a more traditional drum sound with some added rattle for a variety of interesting effects.

Meinl Sonic Energy is a collection of instruments that supports our connection to experience the body, mind and energy, as One. Many practitioners and guides within the health and wellness industry use these instruments therapeutically for stress management, anxiety relief, insomnia, depression, addictive recovery, pain management, etc. They are unique expressions of the vibrations we encounter on a daily basis and when listened to closely, seem to have a language all their own. They invite us to appreciate the definition of all things we find harmonious in our life and through this support, our journey begins toward new peace and restoration. Our collection of beautifully crafted creations makes self-discovery through sound a simple, profound practice.
